

Project Finance and Structured Finance

Providing financial support for investment projects

Project Finance

Project Finance

We provide financing for large projects, including both short-term and long-term loans to meet your business needs that taps into our expertise in many industries such as energy, petrochemicals, gas and natural resources, and infrastructure projects.

Acquisition Finance and Structured Finance

We provide financing for acquisition finance and structured finance such as asset-based finance, financial instruments, and solutions for individual transactions that taps into the expert knowledge of our international branches.

Financial Solutions

We offer other products and services related to project financing such as FX and Interest Rate Risk Management, Accounts, and Cash Management.

Additional Information

Bangkok Bank offers both domestic and cross-border financial support for investment projects, acquisition finance and structured finance for businesses and industries.

Bangkok Bank is a leader in providing project finance, acquisition finance and structured finance for large projects with our experienced and professional team, including industry specialists, and our extensive domestic and overseas branches.

The Bank has been trusted by government agencies, state enterprises, and leading companies, domestically and internationally, to be their financial advisor and to provide project financing for various business and industries such as energy, telecommunications, petrochemicals, gas and natural resources, transportation infrastructure, and joint venture projects between the government and the private sector.
